

WANTED

OLD BIKES, FRAMES OR PARTS FOR SCHOOL PROJECT

A new after school cycling project at Millom Secondary school needs any old bikes, frames, components or parts that you may have lying around in your shed or garage.

The project, "Millom BeSpoke Cycling" is for school pupils and aims to build self-confidence and life skills as well as encouraging cycling in the 11-16 year old age group.

It is being run by Siobhan Quinn, a Geography teacher at Millom school and a member of the Lakes Road Club.

The pupils, under guidance, will strip down any donated bikes and rebuild them, replacing any worn or defective parts to make them useable & roadworthy.

The final objective will be for the pupils to take the bikes they've built on a sponsored C2C ride over a week next summer.

So, please check your garages and sheds and ask your friends, neighbours and relatives to do the same.

Any items will be gratefully accepted, whatever the condition and we will sort out collection.

Please contacted either Siobhan Quinn by email at stquinns@millom.cumbria.sch.uk or call her on 07756 109073

Or alternatively please contact me at eamonn.quinn@hotmail.co.uk or call on 07835 190439 or 01229 821571

Many thanks

Eamonn
